NAP Kickoff Report

Don't forget, NAP Club Qualification will end August 31! If you are not sure whether you are qualified, please check the [D21 NAP Qualifiers](#) list. (The list is organized by Unit. Sometimes the simple method to find out if you are qualified is to search for your name.) In the past, we have seen that sometimes club qualifying games do not get recorded properly in the ACBL qualification database. The most common problem is that NAP club qualification

games played outside the member's home district are frequently missed.

The ACBL made a rule change this year that I, as Coordinator, did not catch in time, so our NAP District Qualification games are all limited to one day. So here is the schedule for the D21 District Finals:

1. The **D21 Championship Flight District Final** will be played at the Monterey Regional on the following schedule:
Sunday, January 10, 2027, at 9:30 AM & after a short lunch break.
The Qualification will be played as a two-session playthrough event.
2. The **D21 Flight A District Final** (<6000 MPs) will be played at the Monterey Regional on the following schedule:
Saturday, January 9, 2027, at 10 AM & 3 PM
The Qualification will be played as a two-session playthrough event.
3. The **D21 Flight B District Final** (<3000 MPs) will be played at the Monterey Regional on the following schedule:
Sunday, January 10, 2027, at 9:30 AM & after a short lunch break.
The Qualification will be played as a two-session playthrough event.
4. The **D21 Flight C District Final** (<750 MPs and not a Life Master) will be played at the Monterey Regional on the following schedule:
Saturday, January 9, 2027, at 10 AM & 3 PM
The Qualification will be played as a two-session playthrough event.

Best of luck to you all!!
